Summary

I am eager to learn and have a curious approach on developing new applications. Would like to accomplish great projects in web development. My projects can be found on [my github page](#)

Programming Skills

- HTML, CSS, SASS, Bootstrap, Javascript, Git

Work experience

02.2020 - 09.2020

Project Manager

Alca Digital - Agency

- I was in charge of development & maintenance of sites of following brands: Turk Telekom, Selfy, Fordtrucks.tr & global, Akbank. Managed tech team (software development), developed scope and executed it, accounted profitability.
- Lead and managed the client/agency relationship and fostered collaboration with the agency team ensuring both client and agency needs are well served.
- Made sure strategic expectations and timings are met and applied critical thinking for brand and overall business. Was responsible for daily updates and reporting to stakeholders.

10.2017 - 4.2018

Digital Marketing Project Intern

Migros Ticaret A.S. - Tazedirekt

- I worked cooperatively with the quality department, kept track of the product informations, certificates and labels.
- Picked brands and products and prepared scripts of hero banners and prepared weekly plan of showcase for the site.

Education

2012 - 2018

Engineering (%100 English) - Bachelor

Istanbul Technical University (Istanbul)

2008 - 2012

TED Kdz. Eregli College Private High

High School

Language

English - Advanced - YDS (88.75/100)

About me
